

Downloading and Installing LoggerPro Software

The links below will take you to the most current version of the LoggerPro software. It will download straight from the website.

After the file has downloaded to your computer, double-click the file to run the installation, and enter the password to install the software if applicable for your version. Please double check that your Anti-Virus software allows the installation or running of .exe files.

The links below will be active through February 2019.
